

A Message from Yealm Medical Centre:

We would like to thank all of our patients for their support and understanding in these challenging and unprecedented times. We appreciate that you have had to get used to us interacting with you in different ways via telephone and video link in a very short space of time, as well as having to queue outside in order to collect medications from the dispensary. Thank you for adapting to these measures in good humour and for continuing to respect all of our staff who are working hard to be there for you when you need us.

In particular, we would like to say a huge thank you to the teams of volunteers from every village that we serve, and to the coordinators of these teams, who are working hard to ensure that medications, food, and other essential supplies are reaching the most vulnerable members of our community. We feel truly humbled by the community response.

Finally, please continue to follow the government advice and stay at home. Together we can beat this infection, remain safe and healthy, and get back to normal as soon as possible.

Thank you to you all!
